Professional Summary

Passionate MERN Stack Developer with 6+ months of experience building scalable web applications.

Currently advancing expertise in Generative AI at PIAIC and mastering Next.js. Adept at translating complex ideas into efficient code, with a focus on security, performance, and user experience.

Collaborative team player committed to continuous learning in dynamic tech environments.

Technical Skills

Frontend: React.js, Next.js, JavaScript (ES6+), TypeScript, Redux, Tailwind CSS, Bootstrap, Axios

Backend: Node.js, Express.js, RESTful APIs, MongoDB, JWT, Data Encryption

Tools: Git/GitHub, Postman, LangChain, LangGraph, FastAPI

Soft Skills: Problem-Solving, Adaptability, Team Collaboration, Attention to Detail

Professional Experience

Gamica Cloud (GIAIC) - Hybrid Web & Mobile App Development Intern

August 2023 - Present | Faisalabad, Pakistan

- Develop full-stack MERN applications with role-based access control (RBAC) and JWT authentication.
- Optimized MongoDB queries for a 40% improvement in API response times.
- Implemented data encryption and collaborated on UI/UX design using React Redux and Tailwind CSS.

Education & Certifications

Intermediate (Pre-Engineering)

Riphah International College, Faisalabad

Matriculation

Govt. Islamia Sirajia High School, Jaranawala

Hybrid Web & Mobile App Development Certification

Gamica Cloud (GIAIC)

Projects

Finance Management App

- Built secure dashboards with real-time encryption and RBAC using MERN stack.

E-Commerce RESTful APIs

- Designed APIs improving response times by 40% via MongoDB optimization.

AI-Driven Chatbots

- Integrated LangChain/FastAPI for AI chatbots during PIAIC coursework.

Community Engagement

- Generative AI Program: Active participant at PIAIC, exploring LLMs and AI-driven development.
- Tech Forums: Contributor to open-source projects (GitHub) and local developer communities.

Why Work With Me?

- Security-first approach with JWT, RBAC, and encryption.
- Agile collaborator experienced in remote/on-site teamwork.
- Lifelong learner skilled in Next.js 14, AI tools, and Python scripting.
